**DYNUG**

# Agenda

- Importance of skilling
- Training options
- Finding new talent & reskill opportunities locally
- GO DO
- Join the challenge
- Q&A

# Trends that drive the need for (tech) skilling

The world requires  
new skills

Organizations need  
Tech intensity

Changing nature of a  
career

A first-person perspective looking down at a person's feet in blue sneakers standing on a railway track. The track is made of dark wooden sleepers and metal rails. Between the rails, there is a bed of gravel. On the wooden sleepers, the words 'MIND THE GAP' are painted in large, bold, yellow capital letters. The scene is dimly lit, with a strong light source from the side creating a bright highlight on the metal rail and casting long shadows.

European projects in digital transformation are, on average, delayed by **8.1 months** due to lack of skills.

**48%** of European companies say it has impacted revenue growth

**47%** that it has increased business risk

Over 60% of European organizations are having difficulties hiring for technology roles.

THE GAP

**Anything is possible for a company when its culture is about listening, learning, and harnessing individual passions and talents to the company's mission.**

Satya Nadella
